

Galapagos

November 22- December 6th, 2022

Blue Green
Expeditions

Blue Green Expeditions is headed to one of the most enchanting places on earth, Galapagos! This is a combination trip where we will have the unique ability to explore both the islands on land and underwater while staying aboard our vessel, the M/V Aqua. These remote islands off the coast of Ecuador are nature's evolutionary laboratory and perfectly situated between the ocean currents to create a diverse ecosystem unlike any other. The archipelago contains more distinct species of flora and fauna than any other place on earth! Our longer and custom

itinerary gives us the time to explore more remote islands looking for unique animal behaviors and interactions. On land, we can see the blue footed booby, Galapagos penguins, marine iguanas, sea lions, many endemic species of birds and of course the Galapagos Tortoises! Underwater the Galapagos is even more amazing! While this is not prime whale shark season, there are plenty of shark opportunities with hammerheads, Galapagos sharks, and white tips as well as seals, mola molas and many other big animals. As an added value, Blue Green Expeditions is taking care of many of the logistics of this trip by incorporating the domestic flights, the hotel in Guayaquil on November 21st and all the transfers to and from the airport, hotel and the boat in the cost. Let us make your experience in the Galapagos

a smooth hassle-free journey that you will never forget!
